

DOVER SCHOOL DISTRICT	POLICY CODE: ECFA
DATE OF ADOPTION: MAY 10, 2010	PAGE 1 OF 1

**ENERGY STAR POLICY
for
Energy Efficiency**

The Dover School District views energy efficiency as an opportunity to educate students and staff about how it relates to environmental protection, as well as reduce operating costs.

The District strives to increase energy efficiency and educate every student and employee about its environmental benefits. Every effort will be made in all departments within the Dover Public Schools to select and purchase energy efficient equipment (not limited to stoves, refrigerators, dishwashers, photocopiers, science, and shop equipment) with the Environmental Protection Agency's Energy Star rating.
