CURRICULUM ADOPTION

A dynamic instructional program requires periodic alteration in the ongoing courses of study.

It is the policy of the School Board that no course of study shall be eliminated or new courses added without prior approval of the Board nor shall any basic alteration or reduction of a course of study be made without such approval.

This policy is intended to stabilize the content of courses of study, reduce the possibility of numerous or extreme changes with requirements of new textbooks, materials, or instructional procedures, and reduce the opportunity for an unplanned curriculum to enter the school system without the knowledge and approval of the School Board.
