HOMEWORK

Homework can be a constructive tool in the teaching/learning process when geared to the needs, abilities, and age of students. Purposeful assignments not only enhance student achievement, but may also develop self-discipline and associated good working habits.

Teachers may give purposeful and meaningful homework to students to aid in the student's educational development. If homework is to be assigned by teachers as part of a student's grade, the teacher will explain to students how such homework assignments relate to the teacher's grading system. Homework should be an extension of a classroom experience, and will not be assigned for disciplinary purposes.
